

RATE SCHEDULE 200-SCI-V - 2009
SMALL SALES – VOLUNTARY FIXED PRICE PROGRAM
(Less than 150 Dth annually)

Availability

Customers who subscribe for service under this tariff shall remain under this tariff for the entire fiscal year period in which this program is offered, beginning in November of the current year and ending in October of the following year. Additionally, those customers under this tariff will utilize the Company's Temperature Adjustment Clause (TAC) and are not eligible to opt out of TAC as provided in Tariff 1141 - 2009, Section 2 while enrolled in the Voluntary Fixed Price (VFP) Program. Customers are required to re-subscribe to the program each year, provided that the Program continues to be offered. Customers not specifically electing to continue under the VFP Program will revert back to their applicable tariff. Customers who subscribe for service under this tariff are required to make payment by automatic bank draft.

Natural gas service under this rate schedule is available to individually metered non-residential Customers whose annual consumption was less than 150 dekatherms (Dth) during the previous twelve (12) consecutive months. Each July the Company will determine the prior twelve (12) month's consumption and the Customer's placement within the rate schedules shall be adjusted accordingly, if necessary, effective with the August consumption month and coinciding September billing cycle. This determination shall be valid until the next determination is made.

Such service shall be provided at any point on Company's system where adequate capacity and gas supply exists, or where such capacity and gas supply can be provided in accordance with the rules of the Oklahoma Corporation Commission and at a reasonable cost as determined by the Company in its sole opinion, or the system of another pipeline with respect to which the Company has an agreement with such pipeline or is taking gas pursuant to a tariff for such service but only to the extent that: (1) the meter for such customer exists as of the effective date of this tariff; (2) service is required by operation of law; or (3) service is agreed to by such pipeline. Under this tariff the Company performs or causes to be performed all functions necessary to transport the gas commodity from the Point of Receipt to the end use Customer. For Customers under an existing contract, this tariff shall only apply upon termination of such contract.

Date Issued December 18, 2009 Date Effective December 18, 2009

Rate Choices

The charge for recorded consumption of gas at one point of delivery in any month is as follows:

For Rate Choice A	<u>Service Charge</u> \$18.75	<u>Delivery Fee</u> \$4.5599 per Dth
For Rate Choice B	<u>Service Charge</u> \$33.95	<u>Delivery Fee</u> \$0.00per Dth

Customer Choice Rate Placement

Each Customer's individual rate schedule will be determined based on the annual normalized volume at the Customer's service location for the twelve (12) months ended on November 30, 2009. If the Customer's service location's annual normalized volume is less than 40 Dth, then the Customer's account will be placed on rate Choice A.

If the Customer's service location's annual normalized volume is 40 Dth or greater, then the Customer's account will be placed on rate Choice B.

An anticipated annual normalized usage level assessment will be conducted on each new service and for existing service as of December 31, 2009 that has less than twelve (12) months of service. The results of this assessment will decide the initial rate choice for the new account.

A customer may switch rate choices at any time during the year provided that the Customer agrees to remain on the alternative option for a period of no less than twelve (12) months after switching options. Changes will be effective with the Customer's next scheduled bill. The Company may adjust the Customer's rate schedule placement and option choice, if available, consistent with the Company's annual volume review in September as stated here within under the Availability Section.
