

Natural Gas Matters

IDEAS AND INSIGHTS FROM YOUR NATURAL GAS SERVICE PROVIDER

**OKLAHOMA
NATURAL GAS**

A DIVISION OF ONEOK

Know What's Below – Dial 811

Winter is ending, the weather's getting warmer and you're ready to start on your outdoor projects to-do list. Whether you're planting a tree, tilling soil, installing a deck or setting fence posts, there's an important call you need to make before you dig – and all you have to remember is **811**.

It's a free call that could keep you and your neighborhood safe. You may not realize it, but underground there is a vast network of pipelines, telecommunications and electrical cables. And if you accidentally hit one of them when digging, you could interrupt services that thousands of people depend on – and put yourself in danger as well.

April Is National Safe Digging Month

Accidental damage to underground facilities can be prevented. One phone call to **811** from wherever you are will route your call to a system that alerts owners of pipelines, telecommunication cables and power lines to mark their buried assets within two business days of the request. In Oklahoma, that responsibility is assumed by "Call Okie," the Oklahoma One-Call System. You may also call direct at 800-522-6543. There's no charge to you.

Remember, call **811** at least two full business days before you plan to dig to allow all utility line locations to be marked.

It's easy to do. So this spring, and any time of year, be safe: Call before you dig.

Save Money With Natural Gas

Oklahoma Natural Gas is teaming up with Mother Nature to help you save energy and money. If you purchase and install an efficient natural gas clothes dryer, you could receive a rebate of up to \$500 through our Energy-Efficiency Program.

Natural gas clothes dryers have faster cycle times than electric dryers, and clothes come out “fluffier” with natural gas – all this while giving you significant savings on your energy bills.

For quality, cost and energy efficiency, you just can't beat natural gas. For more information, program details and application forms, go to www.oklahomanaturalgas.com/rebates.

Broccoli and Sunflower Seed Salad

Ingredients:

6 pieces bacon	1 cup mayonnaise
2 tablespoons sugar	1 cup Sunflower seeds
3 tablespoons vinegar	1 bunch broccoli, chopped

Directions:

Over medium flame, cook bacon until crisp; set aside. Combine other ingredients and stir until well blended. Marinate several hours; sprinkle with crumbled bacon to serve.
