IDEAS AND INSIGHTS FROM YOUR NATURAL GAS SERVICE PROVIDER

## To Our Customers...

My name is Pierce Norton, and I am fortunate to hold the position of president and chief executive officer of ONE Gas, the new parent company of Oklahoma Natural Gas, Kansas Gas Service and Texas Gas Service.

Recently, our company separated from ONEOK, a name you've probably been familiar with for some time. I want you to know that while the name ONE Gas may be new to you, we are still the same dependable utility company you've come to know and trust as your natural gas service provider.

I want to assure you we will continue providing you with the same reliable and safe service you've come to expect from your local distribution company, whether it is Oklahoma Natural Gas, Kansas Gas Service or Texas Gas Service.

You should see no changes to your service because of this separation, and the only difference you may notice is a change in logos on your monthly statement and eventually on our uniforms and vehicles.

At ONE Gas, our customers' safety and quality of service is our top priority. We appreciate each of you for choosing to use natural gas in your homes and businesses, and for allowing us to serve you all these years. We live and work in the communities with you and we will continue working hard to provide you the very best service possible.

I am thankful for the opportunity to lead this company and on behalf of our nearly 3,000 employees, thank you for choosing natural gas to meet a significant portion of your energy needs.

Sincerely,

Pierce H. Norton II
