

Natural Gas Matters

IDEAS AND INSIGHTS FROM YOUR NATURAL GAS SERVICE PROVIDER

Back to School With ONE Gas Public School Foundation Grants

Summer is nearing an end, which means it's time to load up that backpack and head to the bus stop for another year of school. At Oklahoma Natural Gas, we believe that a good education can make a world of difference in the lives of children. That's why we contribute to Oklahoma schools through ONE Gas Public School Foundation grants.

Oklahoma Natural Gas is a division of ONE Gas, Inc., and each year, ONE Gas invests in schools throughout our communities to help K-12 students. In 2015, Oklahoma Natural Gas awarded more than \$58,000 in ONE Gas Public School Foundation grants that will allow Oklahoma schools to further develop and improve their programs that give students the best learning experience possible.

From math and science to music and art, these grants will provide a variety of services and supplies for Oklahoma students. ONE Gas Public School Foundation grants awarded in 2015 will fund the purchase of literacy materials to enrich English classes for non-English speaking students, culinary kits for high school food services programs, new laboratory equipment for elementary science, technology, engineering and math classes and much more.

ONE Gas and Oklahoma Natural Gas are committed to investing in the communities where we live and work. To find out more about our commitment to corporate responsibility and ONE Gas Public School Foundation grants, visit www.onegas.com/PublicSchoolGrants.

Temperature Adjustment

Oklahoma weather can be unpredictable, but your natural gas bill doesn't have to be. That's why we created a billing mechanism that adjusts a portion of your bill to reflect normal weather conditions during the heating season (November through April) to help stabilize your bill from year to year.

In simple terms, your bill is adjusted down when the weather is colder than normal and up when the weather is warmer than normal. Because temperatures vary from month to month, the adjustment is different each month.

Your monthly gas bills for November through April have reflected such temperature adjustments since 1995. However, if you would like to opt out of the temperature adjustment billing process, email us at customerhelp@oklahomanaturalgas.com or mail a written request to:

Temperature Adjustment Opt Out
Oklahoma Natural Gas Company
P.O. Box 401
Oklahoma City, OK 73101-0401

Be sure to include your Oklahoma Natural Gas account number, the name on the account, the service address and a daytime phone number. You may opt out at any time during the heating season. If you elect to opt out, you will be bound by that decision until the next heating season, at which time you may change your election.

Grilled Chicken and Veggie Kabobs

Ingredients:

3 lemons, juiced
 3 tbsp. olive oil
 3 cloves garlic, minced
 ½ tsp. salt
 ½ tsp. fresh ground pepper
 2 lbs. boneless, skinless chicken breast, cut into same size chunks
 1 yellow onion, cut into large pieces
 1 red, yellow or green pepper, cut into large pieces
 1 fresh pineapple, peeled and cut into 1-inch chunks (optional)
 16-20 baby Portobello mushrooms, stems removed (optional)
 2 small zucchini, cut into 1-inch rounds (optional)
 Wooden or metal skewers

Directions:

1. If using wooden skewers, you may wish to soak them in water for about 30 minutes prior to cooking to prevent charring.
2. Prepare the marinade in a long, shallow dish by combining lemon juice, olive oil, garlic, salt and pepper. Set aside.
3. Prepare the kabobs by skewering alternating pieces of chicken and various veggies.
4. Place the skewers in the marinade dish, and roll to coat. Cover the dish, and refrigerate for a few hours or overnight.
5. When ready to cook, heat natural gas grill to high and place skewers on grill.
6. Using tongs to occasionally turn the skewers, cook until the chicken is cooked, about 15-20 minutes.
