

The following conditions must be met before an applicant qualifies for a rebate:

1. Purchase of a dedicated or bi-fueled NGV. NGV must be an “Original Equipment Manufacturer” (OEM) CNG vehicle or contain an Environmental Protection Agency/California Air Resources Board (“EPA/CARB”) Certified Kit;
2. NGV must be a model year less than or equal to ten (10) years from the rebate application year;
3. NGV qualifies for only one rebate during its lifetime, regardless of ownership;
4. NGV must have been purchased or converted within ninety (90) days of the applicant’s request for a rebate;
5. The purchase of dedicated or bi-fueled NGVs and the purchase of residential CNG fueling systems must occur after Oklahoma Corporation Commission approval of the Tariff;
6. Dealerships/conversion companies do not qualify;
7. A completed application; and
8. Oklahoma Natural Gas reserves the right to verify the applicant’s eligibility for a rebate.
