

Natural Gas Heating-System Program

Rebates Available:

- \$50 incentive for the installation of a new 95% efficient natural gas furnace or boiler. Customers may be eligible for a \$550 rebate for the purchase and installation.*
- \$50 incentive for replacing an electric furnace with a new natural gas furnace. An additional \$50 incentive may be available if the new natural gas furnace is 95%+ efficient. Customers may be eligible for up to \$2,500 in rebates for the purchase and installation.*

How To Get Your Rebate:

1. Customer will choose an Oklahoma-licensed contractor to install new natural gas home-heating equipment.
2. Review program eligibility and requirements with the customer.
3. Install the new natural gas home-heating system.
4. Complete the application with the customer. We strongly suggest that contractors assist customers with the completion of the application.
5. Contractor must provide to the customer an Air Conditioning, Heating, and Refrigeration Institute (AHRI) certificate of product rating.
6. Customer will mail the completed application, AHRI Certificate of Product Ratings, new equipment purchase receipt, and invoice within 90 days after the date of installation to:

Oklahoma Natural Gas
Energy-Efficiency Program
P.O. Box 401
Oklahoma City, OK 73101-0401

Eligibility:

- This program is available to any Oklahoma Natural Gas current or prospective customer or builder.
- Rebates are limited and issued on a first-come, first-served basis until program funds are depleted.
- The customer is responsible for the full cost and installation of the natural gas heating system.
- The rebate is for the purchase and installation of a new, natural gas heating system in a new or existing individually metered residential home.
- Only natural gas heating systems purchased after the program implementation date will be considered for the rebate.
- To be eligible for a rebate, the customer must have an active Oklahoma Natural Gas account.

Important Information:

Rebates may be available to any Oklahoma Natural Gas current or prospective customer. Only qualified natural gas equipment will be considered for a rebate. Oklahoma Natural Gas encourages each contractor and customer to review all program eligibility requirements. Incentive and rebate checks will be mailed approximately six to eight weeks after approval, subject to availability of program funds. Completed applications will be reviewed and processed by Oklahoma Natural Gas on a first-come, first-served basis until program funds are depleted.

Incentive programs are available to plumbers and HVAC contractors licensed in the state of Oklahoma. The customer is responsible for the full cost and installation of the equipment. To be eligible for the incentive, the customer must have an active Oklahoma Natural Gas active account and the company must receive the completed documents within 90 days after installation. The incentive is for the installation of new equipment in a new or existing individually metered residential home. Contractor and customer information is submitted together on the customer's application. Contractor is responsible for providing the customer all applicable information and required documentation. Contractor incentive is contingent upon the approved processing of the customer's rebate.

*Contractor must have a Form W-9 and a Contractor Information Form on file with Oklahoma Natural Gas.
