

What natural gas heating system rebates are available?

- \$650** rebate for the installation of a new 95%+ efficient natural gas furnace or boiler.
- \$2,300** rebate for replacing an electric resistance furnace with a new natural gas furnace.
- \$2,300** rebate for replacing an electric heat pump with a new natural gas furnace and air conditioner.
- \$2,900** rebate for replacing an electric resistance furnace with a new 95%+ efficient natural gas furnace.
- \$2,900** rebate for replacing an electric heat pump with a new 95%+ efficient natural gas furnace and air conditioner.

How do I get my system rebate?

1. Review program eligibility and requirements with your contractor.
2. Choose an Oklahoma-licensed contractor to install your new home-heating equipment.
3. Submit the completed application, AHRI Certificate of Product Ratings, new equipment purchase receipt, and invoice from your contractor within 180 days after the date of installation.

How do I know if I'm eligible?

- Rebates are limited and issued on a first-come, first-served basis until program funds are depleted.
- The customer is responsible for the full cost and installation of the natural gas furnace.
- This program is available to any Oklahoma Natural Gas current or prospective customer or builder. The rebate is for the purchase and installation of a new natural gas furnace in a new or existing individually metered residential home or commercial property.

Important information about rebates

- Only qualified natural gas equipment will be considered for a rebate. Oklahoma Natural Gas encourages each customer to review all program eligibility requirements.
- Rebate checks or utility credit will be issued approximately six to eight weeks after approval, subject to availability of program funds.

How to submit your application:
