TIPS TO STAY WARM *this winter*

**Oklahoma
Natural Gas®**

A Division of ONE Gas

1

Set the temperature on your water heater
to 120°F or the “warm” setting

2

Seal gaps and cracks
around windows and doors to stop
air leaks and prevent energy loss

3

Change or clean the filters
on your air conditioning and heating units

4

Install inexpensive foam gaskets
to seal outlets and electrical switches
